

I am Obonwe Malusi Moemedi. I completed my matric in 2022 with a diploma pass at Sir John Adamson High School. I studied and graduated at the South African School of Motion Picture Medium and Live Performance (AFDA) doing higher certificate in film television and entertainment production in 2023. I am currently at Gauteng City College doing system development NQF level 4 and 5. My interest and goals are to prosper in the film industry by investing in my studies up to a degree level and beyond. It is a dream of mine to pave the way in creating a platform for more filmmakers by starting my own Network to give back to my generation. My skills I acquire is teamwork, collaboration, good communication, well organized, creativity and tech-savvy.

Sir John Adamson | High School

Matric | National Diploma (2022)

(I matriculated in 2022 with a National Diploma (National Senior Certificate))

Majored in subjects such as:

- English
- Afrikaans
- Mathematical Literacy
- CAT (Computer Application Technology)
- Visual Art
- Life Orientation
- Business Studies

AFDA | School of Motion Picture

Tertiary Education | Higher Certificate (2023)

(I received my higher certificate in film television and entertainment production in 2023 and had a learnership at Visual Impact for two weeks from 17 – 28 April 2023)

This course aims to assist in developing technical exposure in Film and television industry. Which will assist with the necessary skills needed in roles such as being a Film director, or a producer. Acquiring a sense of how things are done behind the scenes. Basically, how the film industry operates on a vast scale, and how to utilize certain equipment's such as cameras, lights, and the sounds systems.

Gauteng City | College

Tertiary Education | National Diploma, NQF 4 & 5 (2024 & currently)

(I just completed my qualification for my system development in 2024)

The courses I completed and passed in 2024 in the two semesters are:

- Business communication
- Data communication
- Computer package
- Introduction to HTML
- Computer Architecture
- Introduction to Programming
- Introduction to Database
